

GLOBAL MANUFACTURER GETS PROACTIVE WITH IDENTITY PROTECTION

Industry: **MANUFACTURING**

COMPANY

This U.S.-based company is a leading global manufacturer recognized world-wide for quality kitchen and bath products, engines and power generation systems, furniture and decorative tile.

CHALLENGE

With the increasing threat of identity theft, this company wanted to provide its highest risk stakeholders – starting with its board of directors – comprehensive identity protection. The concern went beyond the individual as any **identity breach** could negatively impact the brand and market value of the company. These high-risk stakeholders required comprehensive protection due to their strong visibility in the business and philanthropic communities, along with their high net worth.

SOLUTION

The company selected UltraSecure+Credit from IdentityForce to provide the most robust, comprehensive, proven solution to deliver the complete protection needed for their Board of Directors including*:

- Credit reports and credit scores
- Credit monitoring and alerts
- Advanced fraud monitoring
- Bank and credit card activity alerts
- PC protection tools

*Partial list of features

WHY IDENTITYFORCE

- IdentityForce was highly recommended to the company by a common partner, a global insurance company, through the company's benefits consultant.
- For their Board of Directors, the company needed a solution with concierge-level, fully managed and personal restoration services provided by Certified Protection Experts 24/7, a key element of the IdentityForce solution.
- In a heavily regulated industry, IdentityForce has a stellar history of compliance, reducing risks.

RESULTS

The IdentityForce solution, paid for by the company, has 100% participation. These comprehensive identity protection services have kept the company's high-risk stakeholders safe for more than eight years.
